THE INVALID'S FRIEND.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one!—Drink but little wine, eat no spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of scraps. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nervous.

Mothers and Daughters.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they are afflicted with stone or gravel or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

The Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet; they reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of liver & stomach.

Bronchitis, Diphtheria, Coughs, Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical; the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Biliousness, Loss of Appetite, Head-ache and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague, Bilious Complaints, Blisters on the skin, Bowel Complaints, Colic, Constipation of the bowels, Consumption, Debility, Dropsy, Dysentery, Erysipelas, Female Irregularities, Fevers of all kinds, Fits, Gout, Head-ache, Indigestion, Inflammation, Jaundice, Liver Complaints, Lumbago, Piles, Rheumatism, Retention of Urine, Scrofula, or King's Evil, Sore Throats, Stone and Gravel, Secondary Symp-toms, Tic Douloureux, Tumours, Ulcers, Venereal Affections, Worms of all kinds, Weakness, from whatever cause, &c., &c.

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world; at the following prices:—1s. 1d., 2s. 6d., 4s. 6d., 11s., 22s., and 33s. each box.

* * * There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box. de7

THE BRITISH COLUMBIAN.

NEW WESTMINSTER, SATURDAY, MAR. 25, 1865.

THE VICTORIA CHAMBER OF COMMERCE AND FREE TRADE.

We have before us a neatly printed pamphlet, just issued by the Victoria Chamber of Commerce, and entitled "Progress of British Commerce under Free Trade" &c. About two weeks ago a paper emanated from the same body designed for the Imperial eye, and which may be characterized, in a word, as a tissue of gross misrepresentation and falsehood, scarcely excelled in that respect by the virulent abuse with which the press of the neighboring colony has for some time back attained so unenviable a notoriety. In the pamphlet before us the body in whose name it is issued has wisely eschewed any original remarks, but has merely published 16 pages of dry statistical information respecting the commerce of the United Kingdom, and which has already been published elsewhere. Of course we have not the time or disposition to read the pamphlet through; but we really feel at a loss to see very clearly its applicability to Victoria, for we presume it is intended to be so applied. Surely the Chamber of Commerce has not fallen into the ludicrous blunder of comparing the little island of Vancouver with that island, comparatively small though it be, which may almost be said to direct and control the commerce of the civilized world! And yet, incredibly absurd as it may appear, the natural inference one must draw from the publication of the pamphlet in question, without note or comment, is that the commercial solons of the neighboring colony have actually arrived at the conclusion that because free trade is good for Great Britain it must also be good for Vancouver Island. It's an old saying that "what's sauce for the goose is sauce for the gander," and yet it should not be forgotten that what would fatten the old goose might kill the gosling. Our Victoria Free-traders appear to overlook the important fact that the principle of free trade has not prevailed quite half a century in England. Up to the time that Huskisson lead off in the free trade movement the commercial policy of the United Kingdom was highly protective, perhaps more so than that of any other country at the time. And yet no one will attempt to deny that, anterior to that period, protection was the true policy for Great Britain. But the time did arrive when she could with safety and, as has been proved, with advantage throw down the wall of protection, and invite the competition and the interchange of commerce of all nations. To argue that because free trade is Britain's true policy now it must, therefore, be the true policy of Vancouver Island in its present stage is simply absurd. Nor would it be correct, on the other hand, to jump at the conclusion that because a protective policy was beneficial to Great Britain in her earlier history it, therefore, of necessity must be beneficial to Vancouver Island now. In order to establish either position it must first be shown that the commercial interests and circumstances of the two are similar. It is nonsense, therefore, to take these abstract theories and apply them without any reference to the position and circumstances of the country to which it is sought to apply them. A free trade policy may have suited Victoria very well, so long as they had a finger in our Treasury; but that it was calculated to promote the interests of the island, as a whole, even then, we deny. But, now that British Columbia is no longer their banker the case is very different, and the necessity of raising their revenue by means of a tariff is every day becoming more apparent.

"JOHN CHINAMAN" TRYING IT ON.—Upwards of 100 of these singular beings came up by the last Victoria steamer, each with a pack as usual. In their blankets were considerable quantities of rice and other "iktas," and "John" was not overly well pleased at being obliged to pass through the ordeal very properly imposed by the customs authorities. It is a question worthy the consideration of the Collector whether a watch should not be kept upon the river during the spring months, as in the absence of some such precaution there is nothing to hinder Chinamen, or, indeed others, from slipping past in canoes and small boats with opium, spirits and other commodities upon which the duty is sufficiently high to make smuggling an object.

THE SRA. "HOPE" went up to Harrismouth on Thursday and returned yesterday. She carried up about 80 passengers and 50 tons of freight.

NEW WESTMINSTER, SATURDAY, MAR. 25, 1865.

The Road on the Lower Fraser.

It is gratifying to see a disposition manifested by the Government to take the preliminary steps for the construction of a road from this city to the head of navigation of the Lower Fraser. A Government Surveyor has gone up in conjunction with the party under Mr. Conway for the purpose of ascertaining the best route for the road and the telegraph line. We may be permitted, in anticipation, to express the hope that this side of the river will receive the preference, and briefly state a few reasons for the hope that is in us. To select the opposite side would make it necessary to cross the Fraser twice in order to reach Yale, whereas by keeping this side it would not be necessary to cross once. In constructing all main roads it is desirable to select the shortest and cheapest route. But, in addition to these two very important considerations, there is another which should never be lost sight of; nay, to which the other two should often be made to bend; and that is a regard for the agricultural interests of the section of country traversed. To run main roads through the best agricultural districts, whenever such can be done, not only assists the farmer and promotes the development of one of our most important resources, but it facilitates and cheapens travel, by ensuring accommodation and supplies along the line of road. We do not wish to be understood to assert that there is not plenty of good agricultural land on the opposite side of the Fraser. But we do assert that a road built upon this side, up to Yale, would intersect a much more important and extensive agricultural country. The most conclusive evidence of this is perhaps to be found in the fact that the land on this side has received a very decided preference with settlers. Nor do we believe that the construction of a road would be attended with greater expense upon this side than upon the other. Indeed we question if it would not really be cheaper; for it must be remembered that although there is a considerable sweep of open land above Langley yet it is mostly submerged at certain seasons of the year. We have been assured, by what we conceive to be undoubted authority, that an excellent site for a road can be obtained on this side by keeping a little way from the river, skirting the open land which intervenes between the narrow wooded belt on the bank and the mountain range in the back ground. It is worthy of consideration, too, that we have the road on this side already made as far as Pitt River, whence it was the intention of the late Chief Commissioner of Lands and Works, to continue it on up through the settlement to which we have been alluding. There is this point also to be kept in view, that by keeping this side of the Fraser the road would the better meet the important interests of the Douglas-Lilloet District—a District which, on account of its agricultural interests alone, should command great consideration. To all these may be superadded another argument in favor of the route we have been indicating. And although the idea may provoke a smile, in the first blush, yet we are by no means sure that it is not a consideration of vital importance. We allude to the military aspect of the subject. Colonel Moody was especially charged by the Imperial Government, in 1858, with the task of selecting a suitable site for the capital of British Columbia; and in doing so it was made a part of his duty to keep carefully in view military interests. One reason why the site was chosen upon the north bank was so that the Fraser might intervene between the capital and the American frontier. Now, would not the same reasons apply to the location of the great highway leading from the seaboard back into the interior? There is little doubt that the piece of road in question will ultimately constitute a link in the great overland road. In the event of trouble with our neighbours (*quod avertat Deus*) it would be most important that the road should be on this side of the Fraser. When all these points are considered it appears to us very clear that the road about to be built, so as to connect the interior highways with the seaboard, should by all means be located upon the north-west bank of the Fraser.

THE CHIME OF BELLS.—The last steamer brought up plans for the tower about to be built at Holy Trinity Church for the reception of the chime of bells, the gift of Miss Burdett Coutts, and still lying at Victoria. The design of the tower is of such a character as will make it an ornament to the city. It will be 100 feet high, and built at the south-west end of the Church. The plans are by Messrs. Wright & Sanders, architects of Victoria, and are not unworthy of the well earned reputation of that firm. It will be seen by a notice elsewhere inviting tenders, that the work will be proceeded with at an early day.

Legislative Council.

FRIDAY, March 24th, 1865.

The House met at 3 p.m. The Hon. Attorney-General, C. Brew, J. A. R. Homer and C. F. Cornwall were reported absent on leave. Minutes of previous meeting were read and confirmed.

BILL FOR ABOLISHING IMPRISONMENT FOR DEBT. The second reading of this Bill was moved by the Hon. Mr. Walkem. He asked to have the committee of the Bill delayed until the Hon. Attorney-General would be present. The Bill was read a second time and committed for Monday.

INDIAN LIQUOR BILL.

This Bill was read a third time and passed.

VICE-ADMIRALTY COURT PRACTICE BILL.

This Bill was read a third time and passed.

THE GOVERNOR'S MESSAGE NO. 30.

The Hon. Colonial Secretary moved that the House go into Committee of the Whole upon this message.

Hon. Mr. Walkem moved in amendment, "That His Excellency be respectfully requested to reconsider his Message No. 30 to this Council, suggesting a change of date in the Ordinance from the 1st April to the 15th of that month, at it is respectfully submitted by the Council that any change from the date named in the Ordinance may act inimically to the interests of the Colony, from the fact that ample notice has been afforded by the Ordinance in question to all persons affected by it, and because the miners on the Lower Fraser, who are principally Chinese, are the only parties likely to be benefited by the proposed change. He said that abundant time had been given for bankers to advise their agents in Cariboo, and the only parties that would really be benefited by the change would be those engaged in mining on the Lower Fraser, who were nearly all Chinamen."

The resolution was seconded by the Hon. Mr. Moberly.

The Hon. Mr. Holbrook spoke in favor of the resolution. He said that as the bankers had ample notice, the change if made would enable them to export gold recently purchased at the reduced rate, and it would be legislating to put just so much money into their pockets. It would also benefit Chinamen, who, as a class, enjoyed too much exemption already. There had been no petition or remonstrance before the House.

The Hon. Colonial Secretary said that it was duly proper to inform the House that the Bank of British Columbia had remonstrated, but it was previous to their last heavy export.

The resolution was put to the House and passed unanimously.

The Hon. Colonial Secretary asked the House to adjourn during pleasure to await an important message from the Governor. The House accordingly adjourned for about 20 minutes, when it resumed, and the Hon. Colonial Secretary read a message from His Excellency, laying before the House the petition from certain miners at Victoria together with his reply to the same. The reading of the petition was waived, inasmuch as the hon. members had already seen the substance of it in the newspapers. His Excellency's reply was read by the Clerk, and was listened to with deep attention by the House. After the paper was read the Council adjourned till 2 o'clock on Monday.

News from Up-river.

Arrival of the "Hope."

The steamer *Hope* arrived yesterday from Harrisonmouth, where she connected with the *Henrietta* for Douglas. She brought expresses from the up-river towns for Dietz & Nelson, with \$8,000 in treasure. As the express was leaving Yale intelligence came in that Ned Wadham had been buried in an avalanche near "White Hall House," 18 miles above Yale, but had been exhumed in good order. Mr. Barnard's Indians were about to start out with a coach, which was to be packed through the canyons, but the news of this accident deterred them. On the Douglas route all is animation, and great preparations are making for the spring trade. It is said to be an ill wind that blows nobody good; and the temporary blockade of the canyon road is not likely to do much injury to the Douglas-Lilloet route. There is no news from the interior. The water in the river continues at an unusually low stage.

EXPLORATION.—Mr. Conway, of the Collin's Telegraph Company, with a party of men, and accompanied by Mr. Turnbull, C. E., started out on Thursday for the purpose of exploring for the most eligible route for the telegraph line between this city and Hope. Mr. Turnbull is sent by the Government, as it is wisely proposed to act in conjunction, and, if practicable, have the line for the telegraph and the line for the road one and the same. It will obviously be to the interest of the Telegraph Company that their line should be built along the highway, and the advantages may be reciprocated by having the two schemes conjointly promoted.

THE DOUGLAS PORTAGE.—Application having been made by the people of Douglas, through their representative, the Hon. Mr. Holbrook, His Excellency the Governor promptly granted \$500 towards clearing the road over the Douglas Portage. A considerable force has been put to work by Mr. Dodge, and it is expected that in the course of next week the road will be placed in good condition for regular traffic.

IMPORTANT LAND SALE.—It will be seen by reference to our advertising columns that Mr. Clarkson will offer a number of valuable lots to-day, comprising several most eligible business stands. It will also be observed that the terms of payment are unusually liberal, and we understand that a still further extension of time can be had with respect to the second and third instalments. The sale will be held in one of Mr. Homer's buildings opposite the Colonial Hotel, at half-past 2 o'clock, p. m.

Public School Education.

The following is a copy of the Governor's reply to the Report of the Committee appointed some months ago for the purpose of drafting the framework of a system of common school education, to be submitted to the Legislature:—

GOVERNMENT HOUSE.

New Westminster, 16th March, 1865.

SIR,—I have duly received your letter of the 27th of January, forwarding certain resolutions passed at a public meeting held in the Town Hall on the 25th of January, to consider the principles upon which the schools aided by the Government should be carried on. The meeting desires that the education should be established on a religious but non-sectarian basis.

I do not propose submitting any project of legislation on the subject of education to the Council this session. I, however, am about to appoint a board to assist me in distributing the funds which the Legislature has placed at my disposal for school purposes, and the gentlemen who attended the meeting may be sure that any regulations we may draw up shall have for their basis the general principles they advocate, together with the utmost deference for the religious convictions of every denomination of Christians.

I have the honor to be, Sir, Your most obedient servant, FREDERICK SEYMOUR, William Clarkson, Esq., &c., &c.

THE GOVERNOR'S REPLY TO THE CARIBOO-VICTORIA MINERS.—This unique gem of statesmanship, which will carry confidence and joy to the heart of every true British Columbian, came to us after our present edition was completed. An attempt to portray in language its intrinsic worth and luminosity would be a failure, therefore we leave the document to speak for itself. It shall be placed before the public at an early hour.

THE "ENTERPRISE" left yesterday morning for Victoria. She must have had a rough time crossing the gulf, as it was blowing a gale from the south-west. We believe she will commence her semi-weekly trips next week.

THE CHILLIWACK MURDER.—The Hon. C. Brew went up to Chilliwack yesterday on board His Excellency's steam-yacht *Leathrum* for the purpose of investigating the circumstances connected with the recent murder already noticed in our columns.

THE SCHR. "CAROLENA" cleared yesterday for Metlakatlah, with a cargo of general merchandise.

Art in the Colonies.

"John Anderson my Jo."

There is to be seen in the book store of Messrs. Clarkson & Co., an original water color painting, by Mr. Syme, of this town. It is illustrative of the old song bearing the above title. Among the many lyrical gems that glisten in the page of Scottish song, there are few whose completeness is so marked as that of "John Anderson my Jo." Its beauty is not of that fragmentary kind which generally characterizes the lyric. It is a simple life-drama—the peaceful, uneventful, earnest life of a well-to-do Scottish peasant. The painter's conception, we think, is very good. The two figures sitting in front of their little well-thatched, rose-clustered cottage, would seem to realize the very ideal of homely content and placid resignation, while the Eden-like loveliness of the whole scene is suggestive of that "perfect heaven here below" spoken of in the song. There is a tinge of melancholy visible in the countenance of the old man as he looks into the trustful, care-channelled—though to him still lovely—face of his thrifty old partner. She is touchingly reminding him of the days that "are gone"—re-travelling in fancy the simple pathway of their lives, from the time when, in the opening bloom of manly beauty, "his locks were like the raven" to the time when "his locks are like the snow." But still the vestal flame of her pure upwelling love shines as brightly as ever. She is still "happy in his arms;" and with that serene faith which animates and adorns the peasant character of her country, she looks forward with a kind of satisfied joy to that time when they shall sleep the long long sleep together.

The grouping of the figures is admirable. The lights and shades are nicely rendered, while the brilliant foliage of the foreground is in pleasant contrast with the figures—typical both of nature's decay and re-juvenescence. The foreground and the deep shadows of the cottage are very effective. The perspective in the corner of the picture, with the blue mountains fading away in the distance, and the sun going down, showing the decline of day, are adjuncts in excellent keeping with the figures. The cottage, however, is to our taste, rather too modern for the subject, and the high lights of which are a little too bright, while the shading of the figures is scarcely done enough. Notwithstanding these apparent defects, the picture is most creditable to the taste, and worthily indicates the industry, of the artist. Appreciating to the fullest extent the ennobling influences of art, the refined moral and mental pleasure it induces, and the invaluable of such a soul-satisfying agency in this rugged land of ours, we shall look with pleasing satisfaction upon every artistic effort that may be developed amongst us—viewing such creations as beautiful ministrants to our highest and purest enjoyments.

To the Yankee Braggarts.

[From Punch.]

THE ORDER WHICH WE HAD PREPARED IN CASE MR. SEWARD SHOULD BACK UP GENERAL DIX.

This American crisis is one which is only to be met by the most unmitigated Swagger, and Mr. Punch, hastily constituting himself Head Swaggerer to the British Nation, hereby answers the Yankee journals "with shouts as loud and shrieks as 'fierce as their own.'" War with England, indeed, you long-faced, wizened, ugly, ignorant Occidentals. Do you know what you are talking about? Defy the flag that has braved

a thousand years the battle and the breeze? Laugh at the Lion and give umbrage to the Unicorn. Bah! Bosh! Shut up! Tremble! Do you know what we should do in the flash of a Lucifer match? We should recognise the Confederacy, proclaim Davis King of the South, and steam into all the Confederate ports at once with three hundred thousand Guards, all six foot, and most six and three-quarters, sinking all your blockading ships to David Jones, except such as we should seize for our own use in bombarding New York. We should put Sir Hugh Rose at the head of our stupendous land force, and would rush South to exterminate all your Generals, sober or tipsy, while we marched upon Washington, and for the second time, ha! ha! give it to the devouring flames. We should then walk over you all, and straight into Canada, where we should instantly hang every Yankee who had dared to set his hoof on the sacred soil, and then we should annex the North to the colony, making Quebec the empire city. Meanwhile, our Australian soldiers would be up and doing; the Swan River Volunteers, would occupy Texas, the brave Van Diemens would clear Missouri, the New South Welshers would answer for Arkansas, while the New Zealand natives, amiable and thirsting to show their love for England, would sweep like a tattooed torrent through Minnesota, Iowa, and Wisconsin. We should have a grand re-union of forces at Michigan, where a British Congress would proclaim aristocracy, primogeniture, and the Church of Ireland as the established religion of your country, and then we should consider to what death it would be most satisfactory to the universe to put Gordon Bennett and Mr. Seward. After which a grand display of fireworks and a transparency two miles long, bearing in flaming letters the legend,

THE UNION IS NO MORE!

Put that in your pipes and smoke it; and there's plenty more where that came from. Let's liquor up all round.

Too Numerous to Mention!

Parties would do well to call and ascertain his prices

before purchasing, as he is determined to sell at prices
which will leave no inducement to go elsewhere.

The above stock having been imported previous to

the enactment of the high Tariff, families will save
money by laying in a supply without delay.

Do not mistake the place,

ALL CURES MADE EASY!!
HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when-
ever this medicament is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-
mation.

These distressing and weakening diseases may with
certainty be cured by the sufferers themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
surprising cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system; subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

Eruptions, Scald Head, Ringworm &
other Skin Diseases.

After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach;
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

Sore Throats, Diphtheria, Quinsey,
Mumps & all other Derangements
of the Throat.

On the appearance of any of these maladies the Oin-
tment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat;
this course will at once remove inflammation and ul-
ceration. The worst cases will yield to this treatment by
following the printed directions.

Scrofula or King's Evil and Swelling
of the Glands.

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Stiff Joints.	Sore-throats.
Bunions.	Elephantiasis.	Skin-diseases.
Bite of Mosquitoes.	Gout.	Sore-heads.
Coccy-hair.	Glandular Swel-	Tumors.
Chicago-foot.	lings.	Ulcers.
Corns (soft).	Lumbago.	Wounds.
Cancers.	Piles.	Yaws.
Chilblains.	Rheumatism.	

Sold at the establishment of PROFESSOR HOLLOWAY
244, Strand, (near Temple Bar) London; and by all re-
spectable Druggists and Dealers in Medicines through-
out the civilised world, at the following prices:—1s.
1d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

* There is a considerable saving by taking the
larger sizes.
